AFRICA ENERGY FORUM(AEF)

AFRICA'S ENERGY POTENTIAL: EXPANDING OIL AND GAS EXPLORATION AND INVESTMENT

DATE:
TUESDAY, MAY 5, 2026

TIME:
2:00 PM – 5:00 PM

VENUE:
LEVEL 202, NRG CENTER,
HOUSTON, TEXAS.

ABOUT
THE FOUNDER
AFRICA ENERGY FORUM

SOLOMON TAMAKLOE

CEO, USA-GHATEX INT LLC &
Chairman, Africa Energy Forum at OTC

Solomon Tamakloe is a seasoned leader in the energy and business sectors. He is currently the CEO of USA-GHATEX INT LLC and the Chairman of the Africa Energy Forum at OTC, while also serving as the Board Chairman of the Ghana Houston Chamber of Commerce since 2018. His robust career includes key roles such as Business & Accounting Manager at OSSCO in Houston (with his first OTC participation in 1992), Senior Accountant for Union Oil of California, and Senior Management Accountant at Ricoh USA until his retirement in 2017.

Academically, Solomon holds a B.Sc. in Finance from the University of Central Oklahoma and an MBA from the University of Houston-Victoria. His enduring commitment to excellence is further emphasized by his membership in Beta Gamma Sigma since 1981, underscoring his reputation as a respected and influential figure in his fields.

The 2026 Africa Energy Forum (AEF), part of the OTC Around the World Series, will convene industry leaders and technical experts to explore Africa's evolving oil and gas landscape. With the continent holding 7% of global proven oil reserves and 8% of natural gas reserves, discussions will focus on advanced exploration techniques, reservoir management, and production technologies tailored to Africa's diverse basins. Key sessions will address fiscal regimes, regulatory frameworks, and risk mitigation strategies essential for attracting capital in a competitive global market, while also spotlighting upstream projects such as deepwater developments in West Africa and LNG ventures in East Africa.

AEF 2026 aims to provide actionable insights for operators, investors, and policymakers by emphasizing innovations in seismic imaging, enhanced recovery methods, and strategies for asset monetization under evolving market conditions. The forum will also tackle infrastructure challenges, midstream logistics, and sustainability concerns, balancing resource recovery with geopolitical and environmental realities. As a specialized platform for technical knowledge exchange, AEF 2026 seeks to "maximize resource recovery through innovation" and "equip stakeholders with practical strategies to drive sustainable growth in Africa's oil and gas sector."

- *Maximizing resource recovery through innovation tailored to Africa's diverse hydrocarbon basins.*
- *Navigating infrastructure, environmental, and geopolitical challenges with practical strategies for asset monetization.*

IN FOCUS

Exploration & Production Technologies: *Advanced seismic imaging, reservoir management, enhanced recovery methods.*

Upstream Projects: *Deepwater developments in West Africa, LNG ventures in East Africa.*

Fiscal & Regulatory Frameworks: *Attracting capital through competitive regimes and risk mitigation strategies.*

Infrastructure & Midstream Logistics: *Addressing transport, storage, and monetization challenges.*

Sustainability & Geopolitics: *Balancing resource recovery with environmental and geopolitical considerations.*

Knowledge Exchange: *Technical collaboration among operators, investors, and policymakers.*

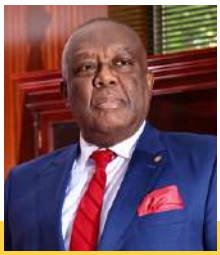

SPEAKERS

H.E DR. HEINEKEN LOKPOBIRI
Minister of State Petroleum Resources (Oil), Federal Republic of Nigeria

H.E DR. JOHN JINAPOR
Minister of Energy and Green Transition, Republic of Ghana

H.E VICTOR SMITH
Ghana's Ambassador to the United States of America

SIMON MADJIE
CEO, Ghana Investment Promotion Centre (GIPC)

SOLOMON TAMAKLOE
CEO, USA-GHATEX International LLC / Chairman, AEF at OTC

ORITSEMEYIWA EYESAN
CEO, Nigerian Upstream Petroleum Regulatory Commission

ADEJUMOKE OYEDUN
MD, ACME Multitech Services, Nigeria/ Co-Chair, AEF at OTC

ENGR. WOLE OGUNSANYA
Chairman/CEO, Geoplex Drillteq Limited

STEVE COFFEE
President, Produced Water Society

DR. VICTOR EKPENYONG
CEO, Kenyon International

HENRY ANSAH
CEO, US Afrik Consulting LLC / President, Ghana Houston Chamber Of Commerce

PANELISTS

NANA JOE MENSAH
Senior Vice President & Head of Ghana Business Unit Kosmos Energy

IBRAHIM TALLA
Director, African Content. Republic of Senegal

SEGUN KUTEYI
Director & COO – Chevron Offshore Business Unit

HAMIS USSIF
Deputy CEO, Ghana National Petroleum Corporation

PAPE MOMAR LO
CEO, RGS Senegal

JOAN FALUYI
Managing Director, Offshore Dimensions Limited, Nigeria

1:50 PM - 2:00 PM

REGISTRATION

2:00 PM - 2:05 PM

OPENING SESSION

2:05 PM - 2:10 PM

PROMOTIONAL VIDEOS

2:10 PM - 2:15 PM

OPENING REMARKS

- **TANTITA SECURITY SERVICES NIGERIA LIMITED**
- **H.E VICTOR SMITH** Ghana's Ambassador to the United States of America
- **AFRICAN LOCAL CONTENT ASSOCIATION - ALCA**

2:20 PM - 3:00 PM

KEYNOTE SPEECHES: GOVERNMENT MINISTERS

- **H.E DR. JOHN JINAPOR** Minister of Energy and Green Transition, Republic of Ghana
- **H.E DR. HEINEKEN LOKPOBIRI** Minister of State Petroleum Resources (Oil)- Federal Republic of Nigeria.

3:00 PM - 3:30 PM

SPONSORS REMARKS

- **SIMON MADJIE**, CEO, Ghana Investment Promotion Centre - GIPC
- **ORITSEMEYIWA EYESAN**, CEO- Nigerian Upstream Petroleum Regulatory Commission
- **STEVE COFFEE**, President, Produced Water Society
- **DR. VICTOR EKPENYONG**, CEO, Kenyon International

3:30 PM - 4:15 PM

PANEL DISCUSSION

PANELISTS

- **NANA JOE MENSAH**, Senior Vice President & Head of Ghana Business Unit Kosmos Energy
- **IBRAHIM TALLA**, Director, African Content. Republic of Senegal
- **SEGUN KUTEYI**, Director & COO – Chevron Offshore Business Unit
- **PAPE MOMAR LO**, CEO- RGS Senegal
- **HAMIS USSIF**, Deputy CEO, Ghana National Petroleum Corporation

- **MODERATOR: JOAN FALUYI**, Managing Director- Offshore Dimensions Limited, Nigeria

4:15 PM - 4:50 PM

Q&A

4:50 PM

CLOSING REMARKS

CHAIRED BY:
SOLOMON TAMAKLOE,
CEO, USA-GHATEX INTERNATIONAL LLC

EVENT MODERATED BY:
SIMON MADJIE,
CEO, GHANA INVESTMENT PROMOTION CENTRE (GIPC)

about us

Kenyon International West Africa Company Limited is one of the fastest-growing energy servicing companies which commenced operation in 2015, offering services such as drilling support, well intervention, well remediation, well control, and idle well management services. We provide solutions to the most difficult challenges in the oil and gas industry. Our ability to venture into uncharted territories have all culminated in helping us become one of the leading oil servicing companies in Africa and beyond.

SERVICES

Drilling Support Services

Supply and installation of wellhead and Xmas Tree
- Conductor Piling

Well Intervention Services

Wellhead Maintenance
- Coiled Tubing Services and pumping services
- E-line Services
- Slickline Services
- Sealant Deployment Technology

Well Remediation Services

Repair of Collapsed Wellhead Jackets/Platforms
- Repair of Collapsed Casing

Wild Well Control Services

Well Blowout Containment
- Wild Fire Containment

Idle Well Management Services

Temporary and Permanent
- Well Securement
- Well Reactivation

Pipeline Laying

Flexsteel Pipe Laying

Manufacturing Services

Oilfield Pressure Control
- Equipment Manufacturing

NUPRC

NIGERIAN UPSTREAM PETROLEUM REGULATORY COMMISSION

Regulating Upstream. Enabling Growth.

EFFECTIVE REGULATION THROUGH TECHNOLOGY

The NUPRC leverages technology to ensure compliance, drive efficiency, attract investment and unlock value in Nigeria's upstream oil and gas sector.

ESTABLISHED IN 2021

Under the Petroleum Industry Act (PIA) 2021

PIVOT OF NIGERIA'S UPSTREAM SECTOR

Enforcing the provisions of the Petroleum Industry Act through regulations, guidelines and technology

19 REGULATIONS ISSUED

And 5 more on the way

ONE MISSION

To enable business

OUR KEY ACHIEVEMENTS

TRANSPARENT LICENSING ROUNDS

100% digital licensing rounds that ensure transparency, fairness and deeper investor confidence.

GAS FLARE COMMERCIALISATION

Driving investments, reducing CO_2 emissions and boosting power generation and LPG capacity for cleaner cooking and better lives.

HOSTCOMPLY

A digital platform that monitors 3% OPEX contributions to Host Communities—ensuring real-time compliance and lasting peace.

AUTOMATION & DIGITISATION

End-to-end digitalisation of licenses and permits for greater transparency, efficiency and faster approvals.

ADVANCE CARGO DECLARATION (ACD)

An upcoming electronic pre-departure cargo declaration system designed to boost transparency, enable real-time monitoring and curtail oil theft.

INCENTIVISING TECHNOLOGICAL ADOPTION

Promoting advanced technology, deepwater cluster development and awarding exploration licences to unlock growth and increase production.

5 YEARS. REAL IMPACT.

Increased Production | Reduced Costs | Stronger Compliance | Peaceful Communities | Sustainable Future

"Regulating today for a prosperous and sustainable tomorrow."

www.nuprc.gov.ng @NuprcNG

PROFILE

H.E DR. HEINEKEN LOKPOBIRI
Minister of State Petroleum Resources (Oil)- Federal Republic of Nigeria.

H.E. Sen. Heineken Lokpobiri, Ph.D., is a distinguished Nigerian statesman, legal scholar, and the current Minister of State for Petroleum Resources (Oil). Born on March 3, 1967, in Bayelsa State, he has spent over two decades at the forefront of Nigerian governance. Since his appointment by President Bola Ahmed Tinubu in August 2023, Dr. Lokpobiri has emerged as a central figure in stabilizing Nigeria's energy sector, focusing on reclaiming the nation's position as Africa's leading oil producer through strategic regulatory reforms and increased production quotas.

His legislative and executive experience is extensive, marking him as a veteran of the Fourth Republic. Before his current ministerial role, he served as the Minister of State for Agriculture and Rural Development from 2015 to 2019. His legislative career includes two terms in the National Assembly as the Senator representing Bayelsa West (2007–2015), where he chaired influential committees on Water Resources and Sports. He first gained political prominence as the Speaker of the Bayelsa State House of Assembly between 1999 and 2001, providing him with a deep understanding of both state and federal administration.

Dr. Lokpobiri is academically distinguished, holding a Doctorate degree (Ph.D.) in Environmental Rights and Environmental Law from Leeds Beckett University in the United Kingdom. His legal foundation was built at the Rivers State University of Science and Technology, where he earned his LL.B. in 1994, followed by a Master of Laws (LL.M) from Leeds Metropolitan University. To complement his legal expertise, he has participated in executive leadership programs at world-renowned institutions, including the University of Oxford, Georgetown University, and Johns Hopkins University, making him one of the most academically decorated members of the federal cabinet

.

Currently, his leadership is defined by a "business-unusual" approach to the oil sector, emphasizing the full implementation of the Petroleum Industry Act (PIA) to attract foreign direct investment. He is a vocal advocate for energy security and has been instrumental in resolving long-standing disputes between the government and international oil companies (IOCs). By prioritizing the ramp-up of crude production and the revitalization of local refining capacity, Dr. Lokpobiri remains a pivotal architect of Nigeria's modern economic and energy roadmap.

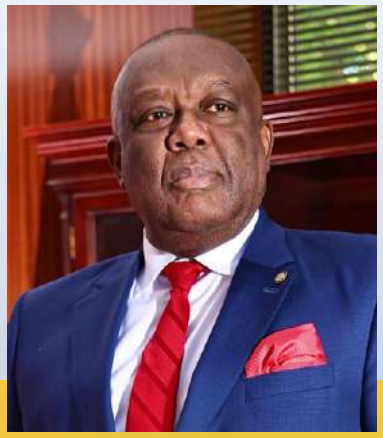

PROFILE

H.E DR. JOHN JINAPOR
Minister of Energy and Green Transition,
Republic of Ghana

Hon. John Abdulai Jinapor is a Ghanaian politician, economist, and development finance expert who serves as Minister of Energy and Green Transition and Member of Parliament for Yapei-Kusawgu. He has held key roles including Deputy Minister of Energy, Petroleum, and Power, and Ranking Member of the Mines and Energy Committee. Academically, he holds multiple advanced degrees in energy economics, development finance, marketing, and policy management, and is pursuing a PhD in Development Finance at the University of Stellenbosch.

He has significantly shaped Ghana's energy sector, chairing the Nuclear Energy Programme Implementing Organization, serving on the Electricity Company of Ghana board, and leading major policy initiatives such as the NDC Energy Manifesto and Energy Transition Sub-Committee. Internationally, he represents Ghana at high-level forums including COP, IMF Spring Meetings, OTC in Houston, and the Mining and Energy Indaba. Passionate about energy policy and community empowerment, he balances his professional work with personal interests in reading and music.

H.E VICTOR SMITH
Ghana's Ambassador to the United States
of America

Ambassador Victor Emmanuel Smith is a seasoned Ghanaian politician, diplomat, and investment consultant with over three decades of distinguished service. He has held prominent leadership roles including Ghana's High Commissioner to the UK and Ireland, Ambassador to the Czech Republic, Hungary, and Slovakia, Eastern Regional Minister, and Presidential Advisor across three administrations. In each position, he demonstrated integrity, strategic foresight, and the ability to manage complex negotiations while advancing Ghana's interests both domestically and internationally.

As CEO of Victor Smith & Associates, he has facilitated foreign direct investment exceeding US$250 million across energy, mining, agribusiness, and infrastructure, helping investors navigate West Africa's regulatory landscape. His diplomatic efforts notably boosted Ghana–UK trade by 18% and strengthened diaspora and business collaborations through initiatives like the Ghana–Central Europe Business Council. Academically equipped with an MBA in International Business and a BSc in Maritime Studies, Ambassador Smith combines intellectual rigor with practical leadership, continuing to mentor future leaders while elevating Ghana's global profile.

PROFILE

ORITSEMEYIWA EYESAN
CEO, Nigerian Upstream Petroleum Regulatory Commission

Oritsemeyiwa Eyesan is the Commission Chief Executive of the Nigerian Upstream Petroleum Regulatory Commission (NUPRC), with over 30 years of experience across technical, commercial, and policy roles in Nigeria's upstream petroleum sector. She began her career at the Nigerian National Petroleum Corporation (NNPC) in 1992 and rose to serve as Executive Vice President (Upstream), NNPC Limited. She played a key role in the development of the Petroleum Industry Act and led the renegotiation of Nigeria's Deepwater Production Sharing Contracts delivering improved fiscal outcomes for the country and unlocking substantial upstream investment opportunities.

Mrs. Eyesan is an internationally recognised energy leader who has demonstrated strong leadership in operations, strategic planning, commercial negotiations, and institutional reforms. She has represented Nigeria at major global and regional energy platforms on hydrocarbon development and global energy transition and is an advocate for mentorship and gender inclusion in the energy industry.

As Commission Chief Executive of the NUPRC, Mrs. Eyesan brings deep operational expertise, strategic insight, and a global perspective, positioning the Commission to strengthen regulatory effectiveness, attract investment, and support the sustainable development of Nigeria's upstream petroleum industry.

JOE MENSAH
Senior Vice President & Head of Ghana Business Unit Kosmos Energy

Joe K. Mensah is an accomplished executive with over 30 years of experience in organizational development and restructuring. Since 2015, he has led the Kosmos Energy Ghana operations, providing strategic direction and overseeing the company's flagship social investment program, the Kosmos Innovation Center (KIC). Before joining Kosmos Energy, he worked with IBM in the United States for over 25 years, significantly improving IT infrastructure in Ghana, especially within the financial sector.

Mr. Mensah has served on several advisory boards, including the Ghana Technology University College, and was the former president of AmCham Ghana. He also serves on the board of Saint Francis Hospital Foundation in Hartford, Connecticut. Mr. Mensah holds a Bachelor of Science degree in Chemical Engineering and a Master of Business Administration, both from Yale University

PROFILE

ENGR. WOLE OGUNSANYA
Chairman/CEO
Geoplex Drillteq Limited

Engr. Wole Ogunsanya is a seasoned professional with over three decades of experience in the oil and gas industry. A graduate of Mechanical Engineering from the University of Lagos in 1987, he began his career with Schlumberger, receiving specialized training in Scotland before working across Angola, Italy, Nigeria, and Algeria in roles spanning testing, production, and formation evaluation. His expertise led him to manage complex projects for major clients such as Agip, Shell, Chevron, and Mobil, while also earning recognition for his leadership potential through advanced training programs in management, geology, corporate finance, and quality initiatives. By 1997, he had successfully managed Exxon-Niger's exploration project, which secured Schlumberger's role in a major World Bank-financed development, and later served as Country Operations Manager for Angola.

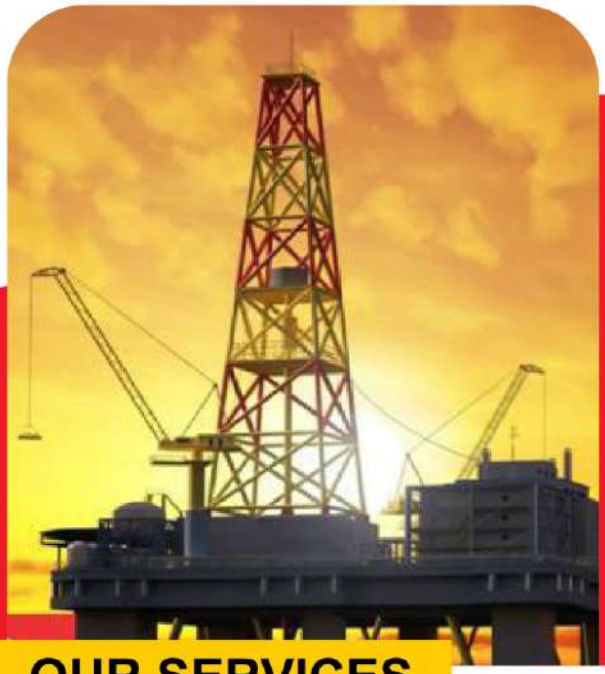

Following his distinguished career at Schlumberger, Ogunsanya founded the Geoplex Group, an indigenous oilfield services company that has grown into a leader in West Africa's well services sector. Under his leadership, Geoplex expanded from electric wireline services to a wide range of offerings including directional drilling, subsea equipment maintenance, dredging, well completions, and logistics, creating thousands of jobs and driving local industry growth. Beyond Geoplex, he chairs PETAN, the Petroleum Technology Association of Nigeria, and holds fellowships with the Nigerian Society of Engineers. He is also co-founder of Concept Solutions Incorporated and Maryland Children Health Center in the USA, and chairs Akermas Energy Limited and Teradyne Nigeria Limited, reflecting his broad influence across engineering, energy, and healthcare sectors.

SIMON MADJIE
CEO, Ghana Investment Promotion Centre (GIPC)

Mr. Simon Madjie is a seasoned investment facilitator and lawyer with over a decade of experience bolstering investment and trade partnerships between Ghana, the United States, and Africa. His career highlights include serving as the Executive Secretary of the American Chamber of Commerce in Ghana, where he played a pivotal role in advancing the chamber's initiatives, such as the AfCFTA Resource Centre. In addition, his expertise was sought in consulting for the establishment of AmChams in Ethiopia, Angola, The Gambia, and Côte d'Ivoire, alongside his work in business development and stakeholder engagement as a Key Account Business Developer with the Equatorial Coca-Cola Bottling Company.

PROFILE

ADEJUMOKE OYEDUN
Managing Director, ACME Multitech Services, Nigeria/ Co-Chair, AEF at OTC

Oyedun Jumoke is an accomplished professional with expertise in project management, office administration, and business development. Her contributions have led to significant organizational improvements, with her roles spanning from event management to strategic business planning. She has successfully organized large scale events and has a wide range of experience in areas such as logistics, client relationship building, and human resources management. Jumoke is also the Co-Chair of the Africa Energy Forum at OTC.

Jumoke has shown leadership by managing administrative teams and identifying new business opportunities. She has fostered relationships with high-net-worth individuals and planned marketing initiatives to increase sales. Her past roles have involved a variety of tasks, from coordinating interviews to training new hires. Her strategic initiatives have led to significant improvements in business productivity. Her strong skills in various areas make her an effective manager and problem-solver.

IBRAHIM TALLA
Director, African Content, Republic of Senegal

He is a senior executive with over 20 years of leadership experience across the energy, mining, and telecommunications industries in West and Central Africa. He specializes in local content strategy, stakeholder engagement, and sustainable development.

As the Director at African Content and Director of Operations at Invest in Africa, he works to empower local businesses and drive impactful change across sectors. Passionate about building lasting partnerships, he focuses on delivering solutions that unlock growth and create shared value.

JOAN FALUYI
Managing Director, Offshore Dimensions Limited, Nigeria

Joan Faluyi is a seasoned executive with over 27 years of leadership in the energy, oil, gas, and mining industries. As Managing Director of Offshore Dimensions Limited and Non-Executive Director at Petrolog Group, she has driven growth through strategic insights, financial expertise, and innovative approaches. Her academic background includes degrees in economics and management, an MBA, and specialized training in international LPG trading and risk management, reinforcing her reputation as a skilled negotiator and multicultural leader.

Alongside her corporate achievements, Joan is a dedicated social entrepreneur through her Blossomflow Foundation, which combats period poverty in Nigeria by providing menstrual health education and sanitary products. Her prior role as Executive Director for Finance and Administration at Petrolog Group saw her successfully oversee global operations with over 600 employees.

PROFILE

DR. VICTOR EKPENYONG
Founder and CEO,
Kenyon International

Dr. Victor Ekpenyong is a distinguished African energy leader, known for advancing indigenous solutions in oil and gas operations. As Founder and CEO of Kenyon International, he has spearheaded critical interventions in Nigeria's upstream sector, including high-risk well control, asset reactivation, and casing pressure management, adding millions of barrels to national output while reducing reliance on expatriate expertise. His blend of technical training and executive education from leading global institutions has positioned him at the forefront of energy innovation, capacity development, and policy advocacy.

Beyond the energy sector, his Victor and Helen Foundation drives impact in education, national security, and community development through scholarships, infrastructure upgrades, and support for military and public welfare initiatives. He also serves on the African Advisory Board of the Society of Petroleum Engineers and holds fellowships across multiple professional bodies. Recognized nationally and internationally, Dr. Ekpenyong has received honors including the United Nations POLAC Peace Ambassador awards and the Africa Legacy Leadership Award, underscoring his influence in both industry leadership and social development.

STEVE COFFEE
President,
Produced Water Society

Steve Coffee is President of the Produced Water Society and Director of International Business Development for Produced Water Solutions, bringing over 32 years of expertise in produced water management. He is recognized globally for innovations in filtration, separation, recycling, reuse, and enhanced oil recovery, and has founded several companies including DesanderPro, LAKOS Oil & Gas, and Enerscope Systems. His technical leadership has produced new solutions in hydrocyclones, sand management, and pump protection equipment, while authoring nearly 30 technical papers and contributing to the development of 12 industry products.

Beyond his corporate roles, Coffee has advanced industry governance and mentorship, creating the Produced Water Society's Young Professional Program and serving on boards such as SPE's Water Management Committee and the U.S. Department of Energy's PARETO project. He holds a business degree from California State University–Fresno and resides in California, where he and his wife actively support nonprofits like RESTORE, which provides reconstructive surgery in underserved regions. His career reflects a blend of technical innovation, global leadership, and humanitarian commitment.

PROFILE

HAMIS USSIF
Deputy CEO, Ghana National Petroleum Corporation

Hamis Ussif is a seasoned energy executive currently serving as the Deputy Chief Executive Officer (DCEO) for Finance, Commercial, and Administration at the Ghana National Petroleum Corporation (GNPC). With a deep background in the sector, including a prior role as the Head of Gas Business, he is instrumental in overseeing GNPC's financial strategies and commercial operations. His leadership focuses on optimizing Ghana's hydrocarbon resources to drive national industrialization and long-term economic stability.

A prominent advocate for energy security, Ussif is a key voice in promoting natural gas as a critical bridge for West Africa's energy transition. He frequently represents Ghana on international stages, such as the West Africa Gas Summit, where he champions strategic partnerships and infrastructure investment. By focusing on local content and regional collaboration, he works to ensure that Ghana's energy sector remains a primary engine for sustainable growth and power reliability across the sub-region.

PAPE MOMAR LO
CEO, RGS Senegal

Pape Momar Lô is a distinguished electrical engineer and senior executive with nearly twenty years of experience in managing high-stakes infrastructure projects across Canada, Africa, and international markets. Educated at the École Polytechnique de Montréal and McGill University, he began his career with major firms like AECOM and Peter Kiewit & Sons, working in the mining and energy sectors. Since returning to Senegal in 2010, he has become a central figure in the nation's development, coordinating transformative initiatives such as the Keur Massar–Diamniadio–AIBD toll highway, the Regional Express Train (TER), and the U.S.-funded Energy Compact under MCA-Sénégal II.

In August 2024, Mr. Lô was appointed Chief Executive Officer of Réseau Gazier du Sénégal (RGS S.A.), where he now spearheads the strategic implementation of the national gas pipeline network. His leadership is vital to Senegal's Vision 2050 agenda, focusing on establishing energy sovereignty through a nearly 400km integrated pipeline system designed to connect offshore gas fields to industrial hubs and power plants. Recognized for his technical expertise and ability to navigate complex inter-institutional environments, he is regarded as a key architect in driving Senegal's sustainable development and regional energy integration.

PROFILE

SEGUN KUTEYI
Director, Operations and COO,
Chevron Offshore Business Unit

Segun Kuteyi is the Chief Operating Officer for Chevron Nigeria/MidAfrica, overseeing operations across Nigeria, Equatorial Guinea, and Cameroon. With a career spanning three decades, he has held leadership roles in Nigeria, the U.S., and China, including Managing Director of Chevron China and General Manager of Chevron Pipeline & Power. Since joining Chevron in 1996 as a plant engineer, he has advanced through diverse positions in operations, engineering, project management, and business strategy, building extensive expertise in upstream and downstream energy.

A Fellow of the Nigerian Society of Engineers and senior member of AIChE, Kuteyi holds degrees in chemical engineering and engineering management, alongside advanced executive education and a PhD in Management from Walden University. His career reflects deep technical knowledge, global leadership experience, and a focus on organizational strategy, positioning him as a key figure in Chevron's mission to deliver affordable, reliable, and cleaner energy.

ARTHUR ENAME
Vice President, Business Development,
Africa NOV, Cameroon

Arthur Ename is Vice President for NOV's Africa Region, where he leads business development and strategic growth across the continent. With over 25 years of experience in the energy sector, he has held senior leadership roles driving complex projects in Africa and other emerging markets. His expertise spans engineering, operations, project management, and building partnerships that strengthen efficiency, safety, and sustainability in energy operations.

He is a strong advocate for Africa's just energy transition, local capacity development, and improved energy access. Actively engaged in industry forums, he shares insights on market dynamics, innovation, and investment opportunities. Under his leadership, NOV continues to support resilient energy infrastructure while empowering local entrepreneurs and stakeholders, reinforcing the company's commitment to sustainable progress and addressing Africa's diverse energy challenges.

HENRY ANSAH
CEO, US Afrik Consulting LLC / President,
Ghana Houston Chamber Of Commerce

Henry Ansah is a Management Analyst with The Harris County Area Agency on Aging (HCAAA) part of a nationwide network coordinating supportive services for Older Adults in Harris County. Before his election as Chairman Henry served as the Executive Secretary of GHCC. He has served in other leadership positions in the community including President of the Ghana Association of Houston. Henry has a Bachelor of Science in Agriculture and an MBA from Prairie View A & M University.

OUR ORGANIZATION

Future Concerns Group is a leading integrated energy services provider, headquartered in Lagos. Our strength lies in our unified platform of skilled people, strategic facilities, and diverse business units

THE FUTURE CONCERNS GROUP

People: A team of approximately 150 highly skilled professionals across engineering, operations QHSE, and project management disciplines.

Businesses: A portfolio of synergistic services delivering end-to-end solutions in QHSE, Engineering, and Procurement, Installation and Commissioning.

Facilities: A robust network of 6 offices across Nigeria's key energy hubs: including our corporate HQ in Lagos and integrated industrial year in Port-Harcourt.

Future Oilfields Services Limited

Production Enhancement solutions & Oilfield support services,EPCIC, Well Services & Engineering Consulting

Future Automation Calibration Technical Services

IMTE Specialist for Calibration, Instrumentation and Process Automation Solutions - SCADA, PLC & DCS systems

Future Concerns Safety Center

Intelligent business platform & resource for Corporate HSE & Emergency Response Services.

MSA SERVICE CENTER Operated by Future Concerns

Portable Gas Detection Instruments, SCBA, Gas & Flame Detection Instruments, Fall Protection & Engineered Systems

Future Concerns PPE Factory

Manufacturer of globally certified PPE, specifically Flame Retardant Coveralls & Industrial Workwear.

Future Concerns Fire Systems Limited

Fire Safety Solutions Provider: Delivering Equipment, Maintenance, Emergency Response & Suppression Services.

ABOUT THE ORGANIZERS

USA-GHATEX INTERNATIONAL LLC

USA-Ghatex International is a business consultancy focused solely on providing the best solutions to our clients. Our goal is to help companies and government decision-makers make informed, data-driven decisions that will support the business's bottom line... USA-Ghatex provides comprehensive consulting services to a range of industries guided by principles of integrity, honesty, and fairness to better serve our clients. Over the years, we have managed to provide returns on our clients' investment and earned the trust and confidence of both local and international business leaders.
